- Performance Reporting, Testing & Optimization
- Agile Delivery, Sprint Planning & Governance
- CRM, CDP, Customer Data & MarTech Programs
- Scope, Timeline, Budget & Resource Management
- Risk, Dependency & Escalation Management
- Audience Segmentation, Targeting & Personalization
- Executive Communication & Delivery Governance
- Product Roadmaps, Prioritization & Delivery Planning

Professional Experience

Senior Account Manager (Technical Project Delivery Lead, CRM & MarTech) | Vigorate

Toronto, Ontario | September 2021 to Present

- Lead delivery across enterprise CRM, lifecycle marketing, customer-data, and MarTech engagements, translating commercial priorities into scope, workback schedules, technical requirements, QA plans, launch decisions, and post-launch improvements.
- Manage a portfolio of 20+ concurrent CRM, MarTech, and customer-data workstreams across Salesforce Marketing Cloud, Marketing Cloud Next, Salesforce Data 360, Braze, and connected data environments, balancing production releases with platform enhancements, optimization, and longer-term initiatives.
- Lead enterprise lifecycle and customer-engagement programs supporting **200M+ annual email and SMS/MMS sends**, alongside push and in-app messaging initiatives. Coordinate audience segmentation, journey logic, consent, data validation, QA, deployment readiness, reporting, and optimization.
- Introduced structured intake, prioritization, RAID, and change-control practices that reduced late-stage scope changes by 30%, improved stakeholder visibility, and increased launch-readiness confidence across high-volume programs.
- Built delivery controls for requirements, acceptance criteria, test scenarios, decision logs, and release checklists, reducing avoidable production defects and **shortening UAT-to-launch cycles by 20%**.
- Own commercial health across retainer and project-based engagements, including scoping, level-of-effort estimation, budgets, burn management, SOW support, resource allocation, and change planning; improved monthly forecast accuracy to **within 5% of actual effort** through clearer capacity planning and weekly burn reviews.
- Partner with client marketing leaders, solution architects, developers, QA, analytics, data, and operations teams to clarify requirements, sequence dependencies, resolve trade-offs, remove blockers, and protect delivery quality.
- Guide CRM, channel, and customer-data improvements spanning consent management, campaign attribution, field mappings, audience validation, personalization, and API-driven automation, coordinating discovery through rollout.
- Maintain portfolio governance through workback schedules, risk and decision logs, weekly reviews, and executive reporting covering delivery progress, budgets, dependencies, and required decisions.

Digital Operations Manager | EnsembleIQ

Toronto, Ontario | January 2021 to September 2021

- Led integrated digital campaigns across paid social, Google Ads, sponsored content, lifecycle email, and web for retail, CPG, and B2B media clients, supporting acquisition, engagement, advertiser objectives, and recurring revenue programs.
- Managed 30+ multi-channel campaign launches annually from briefing through post-campaign reporting, aligning audience strategy, creative requirements, media pacing, tracking, landing-page requirements, delivery timelines, and stakeholder expectations.

- Improved budget-to-click efficiency by 5 to 8% through audience refinement, A/B testing, budget pacing, channel-level monitoring, and recommendations to reallocate spend toward stronger-performing segments and placements.
- Built repeatable campaign-planning and performance-reporting processes that reduced reporting turnaround time by 25% and gave advertisers clearer visibility into pacing, engagement, and optimization opportunities.
- Partnered with sales, editorial, media, creative, and web teams to translate advertiser needs into executable digital programs while protecting deadlines, campaign quality, and client expectations.

Customer Success Manager | 101 Mobility

North York, Ontario | July 2019 to December 2020

- Managed CRM operations, customer analytics, service-performance reporting, and client-delivery processes supporting acquisition, retention, local-market growth, and customer experience.
- Consolidated referral, lead, service, revenue, and customer-performance data into reporting frameworks that **reduced manual analysis by 30%** and enabled leaders to identify underperforming channels faster.
- Analyzed referral sources, customer trends, pull-through rates, job values, service patterns, and market data to identify opportunities across marketing, pricing, operational performance, and local growth strategy.
- Developed competitive-market insights used to strengthen local positioning, sales messaging, service differentiation, and franchise growth planning.

Marketing & Financial Services Representative | Primerica

North York, Ontario | March 2019 to August 2020

- Developed needs-based financial plans across insurance and investment products, supporting client acquisition, relationship management, financial education, tailored recommendations, and ongoing customer communication in a regulated environment.
- Built a referral-driven prospecting approach that increased repeat conversations, strengthened client follow-up, and contributed to recognition through Primerica's North American incentive program.

Project Team Lead | Jobs Canada Fair

Toronto, Ontario | August 2018 to July 2019

- Led an eight-person cross-functional team delivering recruitment marketing and event operations across six provinces, coordinating paid media, email marketing, promotional calendars, partner communications, venue logistics, and on-site execution.
- Owned strategy and execution for **125+ targeted email campaigns**, increasing customer retention by 10% and new customer acquisition by 15% through audience segmentation, tailored messaging, campaign timing, and ongoing optimization.
- Managed simultaneous regional campaign launches, employer communications, event requirements, creative assets, and time-sensitive operational dependencies across multiple Canadian markets.
- Introduced centralized planning and campaign-tracking practices that improved team visibility, reduced missed handoffs, and supported more consistent regional execution.
